Dear Director Human Resource,

I am writing to apply for the ICT Officer positions (Service Delivery / Multimedia) at USIU-Africa. With a BSc in Applied Computing and about three years of ICT support and systems administration experience at PATH, I am prepared to deliver first-level technical support that protects availability, security, and user satisfaction across a busy academic environment.

At PATH I have been a primary contact for ICT requests across walk-in, remote, and ticketing channels, resolving Level 1 and 2 incidents — password and account issues, Microsoft 365 and Windows endpoints, connectivity, printers, and related peripherals — under ITIL/SLA discipline for 120+ users at roughly 98% uptime. I handle Active Directory and Microsoft 365 onboarding and offboarding, monitor and escalate infrastructure issues, support backups and documentation, maintain asset awareness, and build knowledge-base articles and SOPs so issues are solved consistently.

I am comfortable supporting teaching and innovation spaces (venue/AV readiness, reliable connectivity, user guidance) and I learn enterprise platforms quickly — including guiding staff through new digital workflows. I understand the importance of security hygiene (patching, MFA, least privilege, careful handling of confidential data) in line with institutional policy and Kenya's Data Protection Act.

I hold CCNA and Microsoft Azure Fundamentals (AZ-900) certifications, among others, and I am ready to relocate fully to Nairobi to serve USIU-Africa's staff and students. Please find my CV attached. Certified copies of my academic certificates and transcripts, and referee details, are included as required. I would welcome the opportunity to contribute to the ICT team's 99.5% availability and 90% satisfaction goals.

Thank you for your consideration.

Sincerely,
Meshack Ariri
