PROFILE

Applied Computing graduate with ~3 years at PATH delivering technology-enabled work on donor-funded multi-site health programs. Combines digital systems implementation and support (EMR/DHIS2, project databases, Microsoft 365), digital skills training for 80+ staff, product ownership of a county health operations platform, and monitoring/reporting through SQL, Excel, and Power BI/Grafana dashboards. Strong at turning field needs into usable digital workflows, SOPs, and results tracking. Seeking to lead technology and digital integration delivery with AFOSI in Kilifi.

SKILLS

Digital project delivery: Technology-enabled program activities, digital tool rollout, SOP design, multi-site coordination, donor-funded delivery discipline

Digital skills & enablement: Curriculum-style job aids, 15+ training sessions, 80+ staff trained, e-learning friendly documentation, non-technical facilitation

Product & systems: Requirements-to-delivery ownership of reporting/ops platform; KenyaEMR/DHIS2 support; PRISM project database workflows; Microsoft 365

Data, M&E; & reporting: SQL validation, DQA, Excel analytics, Power BI/Grafana dashboards, indicator tracking, timely progress reporting

Innovation & tech stack: Full-stack web (Next.js/TypeScript), cloud DB, AI coursework, automation; rapid prototyping via national hackathons

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 – Present

PATH · Kisumu/Nyamira, Kenya (Hybrid)

- Lead day-to-day digital systems support for KenyaEMR/DHIS2 and related reporting tools across facilities — uptime, data quality, and user adoption.
- Design and deliver digital skills sessions for facility and program teams (part of 80+ staff trained); write SOPs and job aids that stick in the field.
- Own monitoring and reporting workflows: SQL/Excel validation, dashboards (Power BI/Grafana), and timely indicator packages for program review.
- Coordinate with multidisciplinary teams on digital tools for nurturing care / ECD data support; translate field feedback into system improvements.
- Drive innovation through automation that cut reporting/processing effort ~40% while protecting data integrity.

ICT Associate

Jan 2024 – Mar 2025

PATH · Kisumu, Kenya

- Delivered technology-enabled operations for 120+ users across multi-site programs — Microsoft 365, identity, networking, and ITIL-style service workflows (~98% uptime).
- Ran digital onboarding/offboarding and user training; built knowledge-base content so teams could adopt tools without constant escalation.
- Supported surveillance data accuracy with SQL checks and structured ticket discipline (~25% faster response).
- Acted as primary digital contact for non-technical users — clear communication, field-friendly troubleshooting, documented fixes.

ICT Intern

Apr 2023 – Dec 2023

PATH · Homa Bay, Kenya

- Supported facility digitalization and ICT rollout — connectivity, devices, and day-to-day enablement for health workers.
- Logged incidents, contributed to process documentation, and assisted deployments under program timelines.

EDUCATION

BSc, Applied Computing · KCA University, Nairobi · November 2023

Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing. Capstone: designed and implemented a secure office network (VLANs, Active Directory, backup and disaster recovery).

CERTIFICATIONS

CCNA · Microsoft Azure Fundamentals (AZ-900) · Google IT Support Professional · IBM Technical Support · GitHub Professional · Microsoft Data Analysis · Cyberise Hackathon (CA Kenya) · NRF Cybersecurity Hackathon

LANGUAGES

English (excellent) | Kiswahili (fluent)

SELECTED RESULTS

- Product-owned County Health Systems Operations Platform (NDWH & CBS) — facility reporting, EMR overview, assets, and tickets across four counties.
- Trained 80+ staff on digital tools, data quality, and secure use across 15+ sessions.
- Sustained ~98% uptime for digital services supporting 120+ users on donor-funded programs.
- National innovation/hackathon participant (Cyberise / CA Kenya; NRF) — rapid digital problem-solving under time pressure.
