PROFESSIONAL SUMMARY

Applied Computing graduate (BSc, KCA University, 2023) with Artificial Intelligence coursework and ~3 years at PATH supporting digital systems adoption across multi-site health programs. Strong English writing, structured analysis, and adult learning practice: trained 80+ staff on EMR/DHIS2 and data quality; authored SOPs and job aids; supported data tools for nurturing care / early childhood development work. Uses AI tools daily for documentation and knowledge drafting. Seeking a supervised remote research internship to contribute literature reviews and clear drafts on AI and higher education.

CORE SKILLS

Research & writing: English research briefs, literature synthesis (developing), technical documentation, SOPs/job aids, structured analysis of operational data

AI & learning interest: Artificial Intelligence coursework; AI-assisted documentation and troubleshooting; adult digital-skills training design; interest in AI tutors and cognitive load

Digital education practice: 15+ training sessions; 80+ staff trained; role-based coaching; knowledge-base articles; remote/hybrid enablement

Data & systems analysis: SQL validation, DQA workflows, Power BI/Grafana dashboards, EMR/DHIS2 support, reporting automation

Collaboration: Multidisciplinary program teams, remote independent work, clear stakeholder communication

PROFESSIONAL EXPERIENCE

Health Informatics / HMIS Officer

PATH | Kisumu/Nyamira, Kenya (Hybrid) | Mar 2025 – Present

- Train facility staff, ICT officers, and program teams on EMR modules, DHIS2, data quality, and secure system use (part of 80+ staff trained overall).
- Author SOPs, job aids, and technical documentation that scaffold adult learning on complex digital tools.
- Support data tools and decision-support workflows for nurturing care / early childhood development implementation with multidisciplinary teams.
- Analyse care, treatment, and related indicators using SQL-assisted validation and Excel tooling; translate findings into practical recommendations.
- Build Power BI / Grafana dashboards that give users feedback on data quality and program trends.
- Use AI-assisted drafting carefully for documentation and troubleshooting notes, then verify against live systems.

ICT Associate

PATH | Kisumu, Kenya | Jan 2024 – Mar 2025

- Delivered structured user training and onboarding for Microsoft 365 and workplace digital tools across 120+ users.
- Authored knowledge-base articles that reduced repeat support questions and improved independent learning.
- Supported SQL validation and surveillance data accuracy improvements through clear analytical checks.
- Sustained ~98% uptime under ITIL-style ticketing discipline (Freshdesk/Zoho Desk).

ICT Intern

PATH | Homa Bay, Kenya | Apr 2023 – Dec 2023

- Assisted facility digitalization and day-to-day coaching of non-technical users on new systems.
- Contributed to process documentation and internal IT audits.

EDUCATION

BSc, Applied Computing | KCA University, Nairobi | November 2023

Specialized in Cybersecurity and Digital Forensics. Coursework included Artificial Intelligence, Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing, and System Analysis & Design.

Capstone: Designed and implemented a secure office network (VLANs, Active Directory, backup and disaster recovery) simulating real-world IT administration.

Note: Bachelor's degree completed. Not yet enrolled in a Master's programme.

SELECTED RESEARCH / WRITING

AI-Supported Adult Learning in Digital Systems Training (2026) — original English research brief attached to this application.

County Health Systems Operations Platform (NDWH & CBS) — analytical platform and documentation for facility reporting across four Kenyan counties.

LANGUAGES

English (excellent written and spoken) | Kiswahili (fluent)

CERTIFICATIONS

CCNA | Microsoft Azure Fundamentals (AZ-900) | Google IT Support | IBM Technical Support | GitHub Professional | Microsoft Data Analysis

ACHIEVEMENTS & ACTIVITIES

- Trained 80+ health workers across 15+ sessions on digital tools, data quality, and secure use.
- Built County Health Systems Operations Platform (NDWH & CBS) — full-stack reporting/analytics across four counties (portfolio).
- Coursework included Artificial Intelligence alongside cybersecurity and systems analysis (BSc Applied Computing).
- Hackathon participant (Cyberise / CA Kenya; NRF) — rapid research, prototyping, and clear presentation under time pressure.

REFEREES

Patrick Ondieki — ICT Officer, PATH | pondieki@path.org

Marvin Ngosa — Systems Administrator, PATH | mngosa@path.org

Gadaffi Ochieng — Procurement Officer, Ampath | ochienggadaffi@gmail.com
