Dear Human Resource,

I am applying for ICT Officer I at Bandari Maritime Academy, reference BMA/26/CEO/ICT1/17. For about three years at PATH I have done the work this grade describes in a comparable ICT role: install and configure hardware and software, keep the network and day-to-day platforms running, support and train users, write the documentation, and protect information. I supported 120+ users at around 98% uptime. I trained 80+ staff. I hold a BSc in Applied Computing from KCA University and Microsoft Azure Fundamentals (AZ-900). I completed CCNA coursework.

I have not held Assistant ICT Officer II in the public service. PATH ICT Associate and ICT support is the comparable period. I do not hold MCSE or the Cisco CCNA exam. AZ-900 is my Microsoft certification. The attached CCNA document is Cybrary course completion.

I write and test programmes to specification where the Academy needs it (Python, SQL, Next.js), and I can gather requirements and specifications for ICT equipment with vendors. I implement ICT workplans and standards. I have not written an institutional maritime ICT strategy, and I will not pretend I have.

I will relocate to Nairobi for a permanent, on-site Officer I post. Thank you.

Yours faithfully,

Meshack Ariri
