120+	~98%	80+	3CX
USERS SUPPORTED	UPTIME	STAFF TRAINED	VOIP / TELEPHONY

PROFILE

Level 2 IT support professional with around three years at PATH supporting 120+ users across healthcare sites at roughly 98% uptime. Owns escalated troubleshooting: Windows and Linux patching, Active Directory and Microsoft 365, and network diagnostics (LAN/WAN, VPN, DNS/DHCP, Cisco Meraki). Protects health information through access control, encryption, and staff training, and will sign Business Associate agreements. Writes SOPs, supports VoIP/3CX, and automates repeat work with SQL and Python. Remote-ready for Eastern Time hours.

L2 / Escalation RCA, remote support, ITIL/SLA, Freshdesk, Zoho Desk, ticket quality, knowledge base
Patching & Config Windows 10/11 and Server, Linux, endpoint protection, MFA, backups, disaster recovery
Identity / M365 Active Directory / Entra ID, group policy, least privilege, Exchange Online, Teams, SharePoint
Networking LAN/WAN, VLANs, VPN, DNS/DHCP, Cisco Meraki, MikroTik, firewalls, Wi-Fi; CCNA-backed
Healthcare IT Clinical systems, health-data protection, encryption, HIPAA-aware, ready to sign BAA
MSP Tooling SOPs, Meraki monitoring, VoIP/3CX, SQL/Python automation, ready to ramp Enable/N-able

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 to Present

PATH · Kisumu/Nyamira, Kenya (Hybrid / Remote)

- Own escalated technical issues for healthcare sites: EMR/HMIS availability, Windows and Linux server patching, configuration, backups, encryption, and recovery, sustaining over 98% uptime.
- Troubleshoot network and access problems (LAN/WAN, VPN, DNS, DHCP, identity) and explain fixes clearly to non-technical clinical and program staff.
- Build SQL and Python validation/automation that cut manual reporting and processing time by about 40%, the same habit I would apply to repeat MSP fixes.

ICT Associate

Jan 2024 to Mar 2025

PATH · Kisumu, Kenya

- Delivered 1st- and 2nd-line support to 120+ users across multiple healthcare sites, reaching around 98% uptime and about 25% faster ticket response under SLA.
- Configured and patched Windows 10/11 endpoints, Microsoft 365, and Active Directory (provisioning, group policy, least privilege, MFA).
- Configured and monitored Cisco Meraki network devices; diagnosed LAN/WAN, VPN, Wi-Fi, DNS, and DHCP faults instead of guessing at the symptom.
- Supported VoIP/3CX telephony alongside Freshdesk/Zoho Desk ITIL workflows, knowledge-base articles, and standardized procedures.

ICT Intern

Apr 2023 to Dec 2023

PATH · Homa Bay, Kenya

- Supported LAN/WAN, VoIP, desktop imaging, and Freshdesk tickets under ITIL/SLA; contributed to IT documentation.
