120+	~98%	~25%	SLA
USERS SUPPORTED	UPTIME	FASTER INCIDENTS	FRESHDESK / ITIL

PROFILE

Service Desk IT support professional with around three years at PATH supporting 120+ onsite and remote users in a healthcare setting at roughly 98% uptime. Owns incidents and service requests in Freshdesk and Zoho Desk under ITIL and SLA, does IMAC work on Windows 10/11 PCs (install, image, configure, hardware), and manages user access in Active Directory and Microsoft 365 (including mailbox / Exchange Online). Patches endpoints and troubleshoots network faults, then escalates outages with a clean handover. Hybrid-ready for Nairobi office and home rota.

Service Desk Incidents and service requests, Freshdesk, Zoho Desk, Jira Service Management, ITIL workflows, SLA, prioritise, escalate, knowledge base
IMAC and Windows 11 Install, move, add, change; Windows 10/11 OS and PC hardware; PXE imaging; printers; onsite and remote support
Access and Exchange Active Directory, group policy, MFA, least privilege, Microsoft 365 / Office, Outlook, Exchange Online mailbox access
Networking and patching LAN/WAN, DNS, DHCP, VPN, Cisco Meraki, endpoint patching, hardware faults
Healthcare users Clinical and programme staff, clear English, hybrid delivery

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 to Present

PATH · Kisumu/Nyamira, Kenya (Hybrid / Remote)

- Provide technical support to onsite and remote healthcare users: accounts, Windows devices, access, and service restoration, keeping critical systems above 98% uptime.
- Manage user access in Active Directory and Microsoft 365 (mailbox / Exchange Online, Teams, MFA) so joiners work and leavers lose access the same day.
- Escalate outages with reproduction notes and the layer already ruled out (identity, endpoint, network, server). Write the SOP when the same incident will return.

ICT Associate

Jan 2024 to Mar 2025

PATH · Kisumu, Kenya

- Owned the Service Desk queue for 120+ users in Freshdesk and Zoho Desk: log incidents and service requests, hit SLA, prioritise, escalate. Ticket response improved about 25%.
- IMAC on end-user devices: install and configure Windows 10/11 (OS and PC hardware), Microsoft 365 / Office, and peripherals; image desktops (PXE) for standard builds.
- Administered Active Directory (provisioning, rights, group policy) and Exchange Online / Outlook mailbox access; supported MFA and endpoint protection.
- Patched endpoints and diagnosed network faults (DNS, DHCP, VPN, Cisco Meraki). First call when connectivity dropped; ISP when the fault was upstream.

ICT Intern

Apr 2023 to Dec 2023

PATH · Homa Bay, Kenya

- Supported LAN/WAN, PC hardware, printers, VoIP, PXE imaging, and Freshdesk tickets under ITIL and SLA.
