PROFILE

Senior IT Service Desk Specialist for a global health NGO: the person who keeps the queue honest. I run day-to-day service desk operations for 120+ users across sites: Freshservice/Freshdesk, ticket hygiene, SLA, triage, and the huddle that assigns work before the backlog grows a personality. I resolve Tier 1 through Tier 3, escalate P1/P2 with a playbook, and write the snapshot (volume, SLA, repeats) so the manager is not guessing. Microsoft 365, Teams, SharePoint, Entra ID, Intune-style endpoints, remote support. ITIL: Incident, Request, Problem, Change, Knowledge, Service Catalog. PowerShell and Power Automate for the repeat work. On-call evenings and weekends. English.

Service desk / ITSM Freshservice, Freshdesk, Zoho Desk; categorization, CI/asset, forms and workflows, ticket QA, shift-left
Queue and major incident Daily huddles, channel balance (phone, chat, portal, email), SLA/OLA, P1/P2 comms, VIP, vendor and Tier 2/3 coordination
ITIL practices Incident, Request, Problem, Change, Knowledge, Service Catalog; known errors, workarounds, standard change
Identity and endpoints Microsoft 365, Teams, SharePoint, Azure AD/Entra ID, Intune-style endpoint management, remote support
Automation / ops PowerShell, Power Automate basics, daily/weekly snapshots, knowledge base, service catalog entries
NGO delivery Global multi-site support, stakeholder handling, coach and influence without a direct-report line, on-call

EXPERIENCE

Senior IT Service Desk Specialist
Mar 2025 to Present

PATH · Kenya (Hybrid / Remote) · global NGO

- Coordinate the day-to-day service desk for 120+ staff: Freshservice/Freshdesk, categorization, CI/asset updates, automations, and the huddle that assigns work across phone, chat, portal, and email. Uptime above 98%.
- Triage and escalate. P1/P2 user communications. Coordinate Tier 2/3 and vendors. QA ticket hygiene, first contact resolution, and the tone of the reply. Shift-left through the knowledge base and service catalog.
- Capture known errors and workarounds. Contribute to problem reviews. Execute standard change for end-user services. Produce the daily and weekly snapshot: volume, SLA, backlog, repeat contacts.
- Still close tickets myself, including VIP and coverage gaps. Entra ID, Microsoft 365, Intune-style endpoints, remote support. On-call evenings and weekends.

IT Service Desk Specialist
Jan 2024 to Mar 2025

PATH · Kenya (multi-site, global NGO)

- Owned the queue for 120+ users under ITIL and SLA. Ticket response about 25% faster once L1 had a real escalation path and a knowledge base that was actually current.
- Administered Microsoft 365, Teams, SharePoint, and Entra ID / Active Directory. Imaged and supported endpoints. Remote sessions when the user was not in the room.
- Trained 80+ users. Wrote the SOP. Coached colleagues on ticket quality without holding a supervisor title.

Service desk tooling (project-based)
2023 to Present

Independent · Remote

- Built an operations platform with 40+ REST APIs: incident tickets, asset lifecycle, dashboards. PowerShell for the repeat admin. So the queue sees the estate, not a spreadsheet.

EDUCATION **BSc, Applied Computing · KCA University, Nairobi · November 2023**
Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing.
