120+	~98%	~25%	Day-1
USERS SUPPORTED	UPTIME	FASTER TICKETS	JOINERS / LEAVERS

PROFILE

IT administrator with around three years at PATH owning the work this role describes: helpdesk end to end, live asset records, software access and licences, Microsoft 365 and Active Directory, office network and WiFi, MFA, endpoint protection, and backups. Supports 120+ users at about 98% uptime, with about 25% faster ticket response. Writes tickets and procedures in clear English. Ready to work in Nairobi.

Helpdesk End-to-end queue, Freshdesk, Zoho Desk, ITIL, SLA, same-day joiners and leavers, knowledge base
Assets and licences Device register, condition and assignment, licence and subscription tracking, unused-seat flags
Accounts and access Microsoft 365, Entra ID / Active Directory, MFA, least privilege, join / change / leave
Network and WiFi TCP/IP, DNS, DHCP, VPN, Cisco Meraki, MikroTik, guest vs staff, ISP escalation
Security Endpoint protection, patching, firewalls, backups, access control, Data Protection Act 2019 awareness
Written English Tickets, SOPs, asset notes as the record of what happened

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 to Present

PATH · Kisumu/Nyamira, Kenya (Hybrid)

- Own escalated IT for 120+ users: accounts, Windows devices, backups, encryption, and recovery, keeping services above 98% uptime.
- Keep access aligned to who still works here: Microsoft 365 and Entra ID / Active Directory, MFA, least privilege, joiner and leaver on the day.
- Maintain asset awareness, SOPs, and helpdesk notes so a spot check of devices and access has a paper trail.

ICT Associate

Jan 2024 to Mar 2025

PATH · Kisumu, Kenya

- Ran the support queue for 120+ users under Freshdesk / Zoho SLA: log, resolve, escalate with notes; about 25% faster response.
- Configured Microsoft 365, Active Directory, group policy, MFA, and endpoint protection; set up joiners and recovered kit from leavers.
- Kept the IT asset inventory current; tracked software access; monitored Cisco Meraki / MikroTik WiFi and LAN; called the ISP when the fault was upstream.
- Ran backups, patching, and firewall hygiene so the same control gap did not sit open.

ICT Intern

Apr 2023 to Dec 2023

PATH · Homa Bay, Kenya

- Supported LAN/WAN, routers, switches, WiFi, imaging, Freshdesk tickets, and IT documentation.

EDUCATION **BSc, Applied Computing · KCA University, Nairobi · November 2023**
