3+ yrs	~98%	120+	CCNA
SYSTEMS AND NETWORKS	UPTIME	USERS, MULTI-SITE	AND AZ-900

PROFILE

System and network administrator with 3+ years active experience at PATH, a global health organisation, owning ICT infrastructure end to end for 120+ users across multiple sites at roughly 98% uptime: servers, virtualisation, identity, network and security. Second-level and third-level support under agreed service levels, with root cause analysis and the SOP written up. CCNA and AZ-900. Bachelor's degree in Applied Computing.

Servers and virtualization Windows Server 2016-2022, Linux, physical and virtual servers, VMware and Hyper-V virtualization, operating systems, system software and enterprise applications, upgrades and patches, performance, availability, reliability and capacity

Identity and cloud Active Directory, Microsoft Entra ID / Azure AD, user accounts, permissions and access controls, Microsoft 365 / O365, Microsoft Azure (AZ-900), AWS familiarity

Network and data centre Network security: LAN, WAN, VPN, Wi-Fi, internet connectivity; routers, switches, firewalls and network appliances (Cisco Meraki, MikroTik, FortiGate); IP addressing, DNS, DHCP; server health, storage, UPS and environmental controls, preventive maintenance

Security, service, governance ICT security controls and policy, endpoint protection, vulnerability assessment and patch management, system logs and security alert monitoring, audits and risk assessment; backup and disaster recovery (Veeam, rsync) and business continuity; second-level and third-level support, escalation to vendors and service providers, migrations, ICT projects, technical documentation and SOPs, asset and license inventory, mentoring of junior ICT staff

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 to Present

PATH · Kenya (multi-site) · available for Nairobi

- Administer Windows and Linux servers hosting critical business applications at over 98% availability: patching, upgrades, capacity monitoring, backups and disaster recovery.
- Run system audits, configuration reviews and risk assessments, and keep infrastructure documentation current for audit.
- Deliver ICT projects with internal stakeholders and external vendors, writing the implementation plans and technical documentation.

ICT Associate

Jan 2024 to Mar 2025

PATH · Kenya (multi-site)

- Owned ICT infrastructure for 120+ users across sites at roughly 98% uptime: servers, Microsoft 365 and Active Directory, endpoints, Cisco Meraki switches, access points and security appliances, VPN, Wi-Fi and internet links.
- Administered user accounts, permissions and access controls in Active Directory and Entra ID; enforced firewall policy, VLAN segmentation, endpoint protection, MFA and patching.
- Provided second and third-level support and resolved incidents within SLA in Freshdesk under ITIL workflows, cutting response time about 25% and applying root cause analysis to stop repeats.
- Coordinated vendors and ISPs, kept ICT asset and licence inventory accurate, and trained staff with user guides.

ICT Intern

Apr 2023 to Dec 2023

PATH · Kenya

- Supported LAN and WAN, routers, switches, cabling, imaging and server-room diagnostics with senior engineers.

EDUCATION **BSc, Applied Computing · KCA University, Nairobi · November 2023**
Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing.

CERTIFICATIONS CCNA · AZ-900 · Google IT Support · IBM Technical Support · GitHub Professional · Microsoft Data Analysis
