80+	15+	120+	ICT
PEOPLE TRAINED	SESSIONS	USERS SUPPORTED	LABS AND KIT

PROFILE

ICT Trainer with about three years at PATH teaching digital skills to people who are not IT: 80+ staff across 15+ sessions, plus the lab work that makes a class possible. I deliver practical training, sit with learners on project work, and keep the equipment and learning resources running so the session does not die on a dead printer. Windows, Microsoft 365, networks, SOPs, how-to guides. BSc Applied Computing (KCA University, 2023). Ready for Utawala, Nairobi, full-time.

ICT training Digital skills delivery, practical sessions, how-to guides, patient English with new learners, 80+ people trained
Project work Support learners on real tasks: accounts, files, networks, simple applications, documentation
Equipment and labs Windows 10/11, printers, imaging, LAN/Wi-Fi, Microsoft 365, asset inventory, keep the room usable
Learning resources SOPs, job aids, knowledge base, simple exercises, checklists after class
Support behind the class 1st/2nd-line help desk, Freshdesk, MFA, identity, backups, vendor follow-up
Education BSc Applied Computing, Cybersecurity and Digital Forensics; AZ-900, Google IT Support

EXPERIENCE

ICT Trainer
Mar 2025 to Present

PATH · Kenya (Hybrid) · ready to relocate to Nairobi

- Deliver digital-skills training to non-technical staff: Microsoft 365, secure use, data tools. 80+ people, 15+ sessions. Practical, not a lecture.
- Sit with learners on project work until the task works: accounts, files, reports, the thing they have to submit.
- Maintain ICT equipment and learning resources so the session starts: Windows, printers, network, access, the how-to on the wall.

ICT Associate
Jan 2024 to Mar 2025

PATH · Kenya (multi-site)

- Trained users while running 1st- and 2nd-line support for 120+ people. Response about 25% faster once the how-to existed.
- Kept labs and endpoints usable: imaging, printers, Microsoft 365, Active Directory, basic network faults.
- Wrote knowledge-base articles and SOPs that doubled as teaching materials.

ICT Intern
Apr 2023 to Dec 2023

PATH · Kenya

- Supported equipment, imaging, printers, and tickets. Learned to set the room up before people arrive.

EDUCATION **BSc, Applied Computing · KCA University, Nairobi · November 2023**
Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing.
