Dear Hiring Team,

I am applying for the ICT Trainer post at St. Kizito Vocational Centre, Utawala. I want to teach ICT as a usable skill, not as a slide deck. For about three years at PATH I have trained more than 80 people in digital tools, sat with them on the practical work, and kept the equipment running so the session did not fail on a cable.

That is this job. Deliver ICT and digital skills training. Support practical sessions and project work. Maintain ICT equipment and learning resources. I hold a BSc in Applied Computing from KCA University (November 2023), plus Azure Fundamentals and Google IT Support. I do not hold a TSC number. I teach by doing, and I can relocate to Nairobi for this post.

I respect the Centre's work with youth who need a trade, not a performance. I can start as soon as you need someone in the lab.

Thank you.

Sincerely,
Meshack Ariri
