PROFILE

Health Informatics and IT professional with ~3 years at PATH supporting national-scale health information systems such as KenyaEMR/TaifaCare, DHIS2, and EMR, laboratory, and pharmacy integrations. Combines hands-on EMR/HMIS support with data quality (DQA, SQL validation), analytics (Power BI, Grafana), and reliable IT operations for 120+ users across multiple sites. Proven at improving uptime, safeguarding data integrity, and training health workers to adopt digital tools. Focused on digital-health and EMR/DHIS2 implementation roles.

Health Information Systems KenyaEMR/TaifaCare, OpenMRS, DHIS2, NDWH, EMR-lab-pharmacy integration, interoperability, data quality (DQA), surveillance/MEL reporting, Kobo Toolbox
Data & Analytics SQL (MySQL/PostgreSQL), Power BI, Grafana, Metabase, advanced Excel, Python (automation), data validation & pipelines
IT & Systems Microsoft 365, Active Directory/Azure AD, Windows/Linux servers, Apache Tomcat, backups & disaster recovery, networking
Service Management Freshdesk, Zoho Desk, Jira Service Management, ITIL, SLA, incident & root-cause analysis, knowledge base
Delivery & Enablement Training & capacity building, technical documentation/SOPs, stakeholder engagement, requirements analysis

EXPERIENCE

Health Informatics / HMIS Officer
Mar 2025 – Present

PATH · Kisumu/Nyamira, Kenya (Hybrid)

- Support and stabilize KenyaEMR/TaifaCare and DHIS2 across health facilities, sustaining >98% uptime for critical clinical services.
- Develop SQL validation and data-quality (DQA) workflows that improve early error detection and reduce reporting time by ~40%.
- Build Power BI, Grafana, and Metabase dashboards for surveillance, trend analysis, and program decision-making.
- Support EMR-laboratory-pharmacy integrations and multi-system data flow, strengthening interoperability and reporting accuracy.
- Maintain Windows and Linux servers hosting EMR data, covering backups, encryption, patching, and disaster recovery.
- Conduct system audits, data-flow reviews, and risk identification aligned to national HIS standards.
- Train facility staff, ICT officers, and program teams on EMR modules, DHIS2, data quality, and secure system use.

ICT Associate
Jan 2024 – Mar 2025

PATH · Kisumu, Kenya

- Provided 1st- and 2nd-line IT support to 120+ users, achieving ~98% uptime and secure system access.
- Logged and tracked incidents in Freshdesk/Zoho Desk using ITIL workflows, meeting SLAs and improving response time ~25%.
- Developed SQL scripts and automated validation checks that enhanced surveillance data accuracy.
- Administered Active Directory (provisioning, access rights, group policy) and Microsoft 365 (Outlook, Teams, SharePoint).
- Configured and monitored Cisco Meraki network devices for reliable, secure connectivity.
- Authored knowledge-base articles and delivered user training and onboarding.

ICT Intern
Apr 2023 – Dec 2023

PATH · Homa Bay, Kenya

- Assisted facility data-system deployment and digitalization for surveillance and reporting readiness.
- Supported LAN/WAN, routers, switches, and structured cabling; logged/tracked Freshdesk tickets under SLA monitoring.
- Deployed and configured printers, VoIP phones, and desktop imaging (PXE boot); contributed to process documentation.

EDUCATION

BSc, Applied Computing · KCA University, Nairobi · November 2023

Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing. Capstone: designed and implemented a secure office network (VLANs, Active Directory, backup and disaster recovery).

CERTIFICATIONS

CCNA · Microsoft Azure Fundamentals (AZ-900) · Google IT Support · IBM Technical Support · GitHub Professional · Microsoft Data Analysis

SELECTED RESULTS

- Improved multi-system data quality and sustained >98% uptime across supported program sites.
- Automated validation and reporting workflows, reducing reporting/processing time by ~40%.
- Trained 80+ health workers and facility teams on digital tools, data quality, and secure system use.
- Competed in cybersecurity hackathons, including the Cyberise Hackathon (Communications Authority of Kenya) and the NRF Cybersecurity Hackathon.
