PROFILE

Applied Computing graduate with ~3 years at PATH on donor-funded, technology-enabled health programs. Product owner of a multi-county digital ops platform (NDWH/CBS reporting, EMR, assets, tickets); delivers digital skills training to 80+ staff; coordinates matrix/field teams as primary digital contact for 120+ users; and owns monitoring/reporting through SQL, Excel, DHIS2/PRISM workflows and Power BI/Grafana. Strong at work planning for digital rollouts, stakeholder coordination, and results tracking. Open to Kilifi field delivery with AFOSI.

SKILLS

Digital project delivery: Work planning for digital rollouts, multi-site coordination, SOP/job-aid design, donor-funded delivery discipline, stakeholder updates

Team leadership (matrix/field): Primary digital contact for 120+ users; coach facility ICT/program users; run 15+ training sessions; assign owners and escalate blockers

Product ownership: County Health Ops Platform (Next.js/TypeScript/MySQL); KenyaEMR/DHIS2; PRISM project DB alongside DHIS2; Microsoft 365

M&E;, reporting & data: SQL/DQA, Excel analytics, Power BI/Grafana, indicator packages, uptime/progress reporting for program review

Innovation: Automation (~40% reporting effort cut); AI coursework; hackathons (Cyberise/CA Kenya, NRF); Scrum Product Owner certification in progress

EXPERIENCE

Health Informatics / HMIS Officer

Mar 2025 – Present

PATH · Kisumu/Nyamira, Kenya (Hybrid)

- Product-own and advance digital tools for donor-funded delivery: KenyaEMR/DHIS2 support, PRISM project-database workflows alongside DHIS2, and SQL/Excel validation.
- Lead matrix coordination with facility ICT officers and program teams — set owners for data/system issues, coach users, and close loops before reporting deadlines.
- Plan and deliver digital skills training (part of 80+ staff / 15+ sessions); publish SOPs and job aids that drive adoption in the field.
- Own M&E; inputs: Power BI/Grafana dashboards, indicator packages, and progress/uptime reporting for program and leadership review.
- Built County Health Systems Operations Platform (NDWH & CBS) — Next.js/TypeScript/MySQL — for facility reporting, EMR overview, assets and tickets across four counties.
- Cut reporting/processing effort ~40% through automation while protecting data integrity on donor reporting cycles.

ICT Associate

Jan 2024 – Mar 2025

PATH · Kisumu, Kenya

- Primary digital contact for 120+ users on donor-funded multi-site programs — Microsoft 365, identity, networking, ITIL ticketing; ~98% uptime.
- Led work planning for digital onboarding/offboarding and user enablement; knowledge-base content reduced repeat failures.
- Coordinated with ICT colleagues and field users to hit SLA targets (~25% faster ticket response) and keep stakeholders updated.
- Supported surveillance data quality with SQL checks tied to program monitoring needs.

ICT Intern

Apr 2023 – Dec 2023

PATH · Homa Bay, Kenya

- Supported facility digitalization rollout — connectivity, devices, documentation — under program timelines with county-facing teams.
- Assisted deployments and day-to-day enablement for health workers adopting new digital tools.

EDUCATION	**BSc, Applied Computing · KCA University, Nairobi · November 2023** Cybersecurity and Digital Forensics. Coursework: Ethical Hacking, Digital Forensics, Data Protection, Cloud Computing. Capstone: designed and implemented a secure office network (VLANs, Active Directory, backup and disaster recovery).
CERTIFICATIONS	CCNA · Azure Fundamentals (AZ-900) · Google IT Support · IBM Technical Support · GitHub Professional · Microsoft Data Analysis · Cyberise / NRF Hackathons · Scrum Product Owner certification — in progress

LANGUAGES

English (excellent) | Kiswahili (fluent)

SELECTED RESULTS

- Product-owned multi-county digital ops platform (NDWH & CBS) with measurable reporting/visibility gains for program teams.
- Led digital skills delivery for 80+ staff; primary digital contact coordinating 120+ users to ~98% uptime.
- Donor-program M&E; support: DQA, dashboards, and timely indicator/uptime inputs for review cycles.
- National hackathons (Cyberise / CA Kenya; NRF) — rapid digital problem-solving under time pressure.
