Re: Application – Application for ICT Associate

Dear Hiring Manager,

I am writing to express my interest in the ICT Associate position at UN Women. With hands-on experience in ICT support, service delivery, end-user support, and infrastructure troubleshooting, I am confident in my ability to contribute effectively to the Nairobi office by providing reliable technical support, maintaining ICT systems, and ensuring users receive timely and professional assistance.

In my current role as an ICT Support Specialist at PATH Kenya, and previously as an IT Service Desk Technician, I have provided first- and second-line technical support to over 120 users across a wide range of ICT needs. My experience includes resolving hardware, software, Microsoft 365, printer, VPN, and connectivity issues through both onsite and remote support, while logging and tracking incidents through helpdesk platforms such as Freshdesk, Jira, and Zendesk. I have also supported workstation setup, user onboarding, account administration, software installation, endpoint troubleshooting, and user guidance, always with a strong focus on customer service and timely communication.

My technical background also includes practical support for LAN/WAN and Wi-Fi environments, troubleshooting routers, switches, DNS/DHCP, and other local connectivity issues, as well as supporting ICT asset handling and documentation. I am comfortable working within structured ICT processes, escalating issues appropriately, coordinating with technical teams and service providers, and supporting staff with varying levels of technical knowledge. In addition, I value the importance of documentation, knowledge sharing, and continuous service improvement, which I understand are essential to this role.

I hold a Bachelor of Science in Applied Computing and have strengthened my technical foundation through certifications including Microsoft Azure Fundamentals and CCNA. Beyond technical skills, I bring professionalism, accountability, adaptability, and the ability to work effectively in multicultural environments. I am particularly drawn to this opportunity at UN Women because of the organization's commitment to equality, inclusion, and impactful service, and I would be honored to contribute my ICT support experience to help enable its work.

Thank you for your time and consideration. I would welcome the opportunity to further discuss how my experience and skills align with the needs of the ICT Associate role.

Yours sincerely,

Meshack Ariri
