

EDUCATION

KCA University

Nairobi, KE

November 2023

- Bachelor of Science in Applied Computing
- Related Coursework: Artificial Intelligence, Cloud Computing, System Analysis and Design
- Capstone Project: Designed and implemented a secure enterprise office network with VLANs, Active Directory, backup protocols, and disaster recovery planning

EXPERIENCE

Program Appropriate for Technology in Health (PATH)

Hybrid

ICT Support Specialist (Current Role)

- Deliver Level 1 and Level 2 technical support for 120+ users across hybrid Windows environments, maintaining high system uptime and service continuity
- Serve as a primary point of contact for user support requests, providing clear guidance and troubleshooting assistance for technical issues
- Administer Active Directory including account provisioning, access management, password resets, and group policy support
- Support Microsoft 365 services including Outlook, Teams, Office applications, and user lifecycle management
- Resolve incidents involving VPN connectivity, Windows OS issues, printers, endpoint devices, and network access within SLA timelines
- Maintain accurate ticket documentation and recurring issue logs to improve troubleshooting efficiency and knowledge sharing
- Assist with endpoint security enforcement through antivirus management, patching support, MFA guidance, and secure access practices
- Support LAN/WAN troubleshooting, connectivity diagnostics, DNS/DHCP support, and infrastructure monitoring activities
- Utilise PowerShell, Bash, and Python scripting for basic automation, troubleshooting, and administrative tasks

Program Appropriate for Technology in Health (PATH)

Hybrid

IT Service Desk Technician

April 2023- December 2024

- Delivered first-line technical support for hardware, software, Windows, Microsoft 365, and account-related issues in a fast-paced service desk environment
- Managed and updated support tickets using Freshdesk, ensuring timely resolution, accurate documentation, and effective escalation when required
- Assisted users through phone, email, and remote support sessions while maintaining professional and customer-focused communication
- Supported onboarding and offboarding activities including workstation setup, account creation, software deployment, and access provisioning
- Assisted with network support including WiFi troubleshooting, router/switch connectivity, and structured cabling support
- Performed workstation imaging, software installations, preventive maintenance, and endpoint troubleshooting
- Supported printers, VoIP systems, remote access solutions, and office IT infrastructure
- Collaborated with senior engineers during system upgrades, troubleshooting escalations, and infrastructure support tasks

SKILLS

IT Systems Administration & Microsoft Ecosystem

- Windows 10/11 administration, configuration, and troubleshooting
- Active Directory user lifecycle management (provisioning, deprovisioning, group policy, access control)
- Microsoft 365 administration (Exchange Online, Teams, Outlook, Office apps)
- User onboarding/offboarding and identity management
- Cloud fundamentals supported by **Microsoft Certified: Azure Fundamentals (AZ-900)**

Technical Support & Service Desk Operations

- ITIL-aligned incident management and service desk operations
- Tier 1 & Tier 2 end-user support across hybrid environments
- Ticketing systems (Freshdesk) for incident tracking and resolution
- Strong troubleshooting of hardware, software, OS, and application issues
- Service desk best practices reinforced by **Google Technical Support Professional Certificate** and **IBM Technical Support Certification**

Networking & Infrastructure (CCNA-Aligned)

- TCP/IP networking fundamentals, routing and switching
- LAN/WAN troubleshooting, DNS, DHCP configuration and diagnostics
- VLANs, routers, switches, and WiFi connectivity support
- VPN configuration and remote access troubleshooting
- Network engineering foundation validated by **Cisco Certified Network Associate (CCNA)**

Cybersecurity & Endpoint Management

- Endpoint protection (antivirus, patching, compliance support)
- Multi-Factor Authentication (MFA) and secure access management
- Cybersecurity fundamentals and awareness enforcement
- Basic incident response support and vulnerability reporting
- Cybersecurity exposure strengthened through **Communications Authority of Kenya**

Cybersecurity Hackathon Certification
