

EDUCATION

KCA University

Nairobi, KE

November 2023

- Bachelor of Science in Applied Computing
- Related Coursework: Artificial Intelligence, Cloud Computing, System Analysis and Design
- Capstone Project – Designed and implemented a secure office network with VLANs, Active Directory, and backup protocols to simulate real-world IT administration. Demonstrated hands-on skills in server setup, user access control, and disaster recovery planning.

EXPERIENCE

Program Appropriate for Technology in Health (PATH)

Hybrid

ICT Support Specialist (Current Role)

- Provide daily technical support for 120+ users across Windows environments, ensuring stable IT operations and high service availability.
- Administer Active Directory including user account creation, permissions management, group policies, and access control.
- Support Microsoft 365 applications including email, Office apps, and user provisioning.
- Troubleshoot and resolve issues involving Windows OS, software applications, VPN connectivity, printers, and network services.
- Perform endpoint protection support including antivirus management, patching, and basic cybersecurity enforcement (secure access practices, MFA support).
- Assist in network support activities including LAN/WAN troubleshooting, connectivity diagnostics, and infrastructure monitoring.
- Maintain IT documentation including incident logs, recurring issue analysis, and resolution guides to improve service efficiency.
- Support system improvements by identifying recurring technical issues and recommending preventive solutions.

Program Appropriate for Technology in Health (PATH)

Hybrid

IT Support Technician

April 2023- December 2023

- Delivered first-line IT support for end users, resolving hardware, software, and Windows OS issues.
- Supported network infrastructure including routers, switches, WiFi connectivity, and structured cabling.
- Assisted in onboarding/offboarding processes including device setup, account creation, and access provisioning.
- Logged and managed support tickets using Freshdesk, ensuring accurate documentation and timely resolution.
- Performed workstation setup, software installation, and system imaging for end-user devices.
- Supported maintenance of printers, VoIP systems, and office IT equipment.
- Assisted in preventive maintenance and system health checks across IT infrastructure.
- Worked with senior engineers on system upgrades, audits, and troubleshooting escalations.

SKILLS

IT Systems Administration & Support

- Windows 10/11 administration and troubleshooting
- Active Directory user and access management
- Microsoft 365 (Exchange, user provisioning, Office apps)
- User onboarding/offboarding and account lifecycle management

Networking & Infrastructure

- LAN/WAN troubleshooting, TCP/IP, DNS, DHCP
- VLANs, routers, switches, WiFi connectivity support
- VPN troubleshooting and remote access support

Cybersecurity & Endpoint Management

- Endpoint protection (antivirus, patch management)
- MFA and secure access practices
- Basic cybersecurity enforcement and user awareness support

Tools & Platforms

- Freshdesk (ticketing and incident management)
- Microsoft Azure (Certified)
- Microsoft 365 / Office 365
- Active Directory
- VMware / Virtualization tools
- GitHub (version control)

Programming & Automation

- Python (basic scripting)
- PowerShell & Bash scripting
- Basic SQL (MySQL/MariaDB) for troubleshooting

Strengths

- Strong troubleshooting and root cause analysis
- Clear documentation and process improvement mindset
- Ability to work independently in structured environments
- Strong communication and user support skills
