

EDUCATION

KCA University

Nairobi, KE

November 2023

- Bachelor of Science in Applied Computing
- Related Coursework: Artificial Intelligence, Cloud Computing, System Analysis and Design
- Capstone Project – Designed and implemented a secure office network with VLANs, Active Directory, and backup protocols to simulate real-world IT administration. Demonstrated hands-on skills in server setup, user access control, and disaster recovery planning.

EXPERIENCE

Program Appropriate for Technology in Health (PATH)

Hybrid

Technical Support Specialist

Jan 2024- Current

- Delivered day-to-day technical support to over 120 users, resolving software, hardware, system, and network issues while maintaining high service availability.
- Diagnosed and resolved user-reported issues across operating systems, Office 365 applications, VPN connectivity, printers, and conferencing tools.
- Provided support through multiple channels including calls, remote troubleshooting sessions, and in-person support.
- Performed root-cause analysis for recurring technical issues and documented resolutions to improve efficiency and reduce repeat incidents.
- Created and maintained knowledge-base documentation to improve support processes and user self-service.
- Managed Active Directory user accounts, permissions, and security policies.

Program Appropriate for Technology in Health (PATH)

Hybrid

IT Support Technician

April 2023- December 2023

- Logged, tracked, and managed incidents using Freshdesk while ensuring accurate documentation and timely resolution.
- Supported troubleshooting of network, software, and user-related technical issues across multiple systems.
- Assisted with deployment and configuration of desktops, printers, VoIP devices, and user workstations.
- Supported maintenance of LAN/WAN infrastructure, routers, switches, and endpoint devices.
- Participated in preventive maintenance, system health monitoring, and process documentation.
- Worked closely with senior engineers to diagnose configuration and connectivity issues and improve support efficiency.

SKILLS

- Technical Support & Troubleshooting – Tier 1–2 support, root cause analysis, system diagnostics, incident resolution, and knowledge base documentation.
- Customer Support Tools – Freshdesk ticketing system, SLA tracking, issue documentation, and user communication workflows.
- Systems & Backend Understanding – Experience building and deploying systems using Node.js, Express.js, and MariaDB/MySQL; understanding of backend workflows and system behavior.
- Databases & SQL – MySQL/MariaDB, writing and executing basic SQL queries for data lookup and troubleshooting.
- Cloud & Platforms – Microsoft Azure (Certified), Microsoft 365 administration, GitHub version control, basic cloud deployments.
- Networking & Infrastructure – LAN/WAN, VPNs, VLANs, TCP/IP troubleshooting, and endpoint connectivity diagnostics.
- Programming & Automation – Python utility scripting, PowerShell, Bash scripting, and Git workflows.
- Hardware & End User Support – Device deployment, printer setup, workstation configuration, and user onboarding.
- Analytical Thinking – Strong ability to understand system flows, trace issues logically, and connect frontend symptoms to backend causes.
