

EDUCATION

KCA University

Nairobi, KE

November 2023

- Bachelor of Science in Applied Computing
- Related Coursework: Artificial Intelligence, Cloud Computing, System Analysis and Design
- Capstone Project – Designed and developed a structured multi-page digital system prototype simulating a real-world business website environment, focusing on layout consistency, content structure, and user navigation flow

CORE SKILLS

Web & Site Development Support

- Experience working with structured website layouts and page components in content-driven web environments
- Support in building and updating responsive web pages with attention to structure and usability
- Ability to maintain consistency across multi-page websites and ensure content accuracy
- Comfortable working within CMS-style environments and page-building systems

Website Maintenance & Troubleshooting

- Troubleshooting layout issues, broken elements, and form functionality on web pages
- Supporting updates, edits, and improvements across existing websites
- Testing pages across devices to ensure responsiveness and stable user experience
- Identifying and resolving issues affecting page structure and usability

On-Page SEO Implementation

- Implementation of on-page SEO elements including headings, metadata, image alt text, and URL structure
- Supporting structured content formatting for improved search visibility
- Assisting with page-level optimization for indexing and search performance
- Awareness of how page structure affects search engine crawling and ranking

Tools & Workflow Systems

- Use of structured ticketing systems to manage and resolve website-related tasks and client requests
- Experience working with task tracking workflows to monitor updates, fixes, and website changes
- Exposure to analytics and search tools for monitoring site performance and indexing behavior
- Ability to apply simple HTML/CSS adjustments where required for layout or content fixes
- Use of AI tools (ChatGPT, Copilot) to support content structuring, debugging, and workflow efficiency
